SUMMARY

I am eager to thrive in a dynamic and intellectually stimulating work environment, leveraging my skills to contribute to both personal and organizational growth. Passionate about innovation and technology.

EXPERIENCE

Criteria Corp, USA — *Software Engineer - Contractor*

SEP 2023 - Present

I lead the integration of advanced AI solutions into the HR system. My focus includes deploying machine learning models, implementing DevOps practices for automation, ensuring data security, and optimizing system performance. Collaborating cross-functionally, I contribute to a dynamic and innovative work environment. Passionate about continuous learning, I stay ahead of AI trends, driving impactful innovation within the organization.

Codemonk, UK — *Senior Software Engineer*

MARCH 2023 - AUGUST-2023

- Spearheading ARM projects, driving innovation, and enhancing development efficiency.
- Spearheaded the adoption and implementation of AWS cloud services to enhance system scalability and performance
- Designing and implementing AWS Lambda APIs in Node.js to empower microservices within a scalable architecture.
- Leveraging AWS DynamoDB and AWS Redshift PostgreSQL for efficient data management, ensuring seamless data retrieval and analysis.
- Collaborating with cross-functional teams to deliver user-friendly and high-performance solutions that align with project objectives.
- Conducting thorough code reviews and integration testing to maintain the highest code quality and performance standards.

Counter.app, Berlin — *Senior Software Engineer*

AUGUST 2021 - AUGUST 2022

- Building high-performance REST API and scalable application structure
- Contributed to the design of the system and service to ensure a user-friendly and efficient platform
- Performing reviews and integration testing to assure the quality of project development efforts

EDUCATION

Jabalpur Engineering College, Jabalpur — *Bachelor of Engineering*

SEPTEMBER 2011 - JULY 2015

Electrical and Electronics Engineering

Jawahar Navodaya Vidyalaya , Padmi Mandla — *Degree*

JULY 2004 - MARCH 2011

Middle School, High School and Higher Secondary

PROJECTS

Counter.app — *All-in-one workspace for hostels*

A platform for hostels to manage bed allocation, activities, bar, and payment workflow

Designed and implemented the website's user interface features . Integrated with various payment and partner channels Ensured website's responsiveness and accessibility [React, Node.js, and MongoDB-AWS]

Achievements:–Successfully integrated with **MakeMyTrip**, **Goibibo**, **QuickBooks,Goki**, **Pace revenue**,and **SIBA**

TakePrism —Upskilling Aggregator in Canada

Solution for Order fulfillment of various online orders is chaos in restaurants

- Designed the system architecture and ensured that it was user-friendly and efficient.
- Successful Integration of Grubhub, UberEats and DoorDash

AWARDS

Triplebyte Certification

JavaScript Algorithms and Data Structures - FreeCodeCamp

Rest API - HackerRank

React - HackerRank

JavaScript - HackerRank

Node.js: Security - LinkedIn

Node.js: AdVanced - LinkedIn

Contributions

Easy VC, **UCS-Group**, **Snapfitness**,

Prodigee finance, **Pride Cabs**

Laventure

[**React**, **Node.js**, **Next.Js**, BigBlueButton, Socket.io, MongoDB]

FutureTal —Upskilling Aggregator in Canada

Connecting with real-time domain and technology experience professionals for 1-1 training, mentorship, job support

Responsibilities:

- Designed the system architecture and ensured that it was user-friendly and efficient.
- Conducted research and development to ensure the successful implementation of the project
- Selected the appropriate tools and technologies to be used for the project

[**React**, **Node.js**, **Next.Js**, BigBlueButton, Socket.io, MongoDB]

KreditAid —A *Company & Business Research Platform*

Comprehensive information about companies and their performance. It offers easy to read business reports, alerts for new developments, and all information in one place for quick decision-making.

Developed a user-friendly and accessible platform for seamless information and report generation from scratch providing easy to understand financial analysis and business insights to clients.

[**React**, **Node.js**, **PHP**, Python, Tesseract, Arrele **MySQL**]
